TWO NEW WAYS TO BANK ON BIG EXCITEMENT

One hungry wolf. One overflowing piggy bank. Two colorful Cash Bank adventures are ready to turn your next stop into a full-on collecting frenzy.

FEED THE FRENZY

Wolf It Up

Wolf It Up is ready to sink its teeth into Cash Bank action. Red and Gold Apple symbols can land across the first four reels carrying values from 1x all the way to 100x your stake, while Collect symbols wait on reel 5. When that Collector lands, it gathers every Apple value in view. A screen that looked like scattered fruit one second earlier can suddenly become one very satisfying feast.

And every Apple has another job: it feeds the Apple Pile. As the pile grows through as many as five levels, each new Apple creates another chance to unleash the Wolf Wheel Bonus. In the base game, that wheel can award Fever Games or a Mini, Minor, Major or Grand Prize Pot. During Cash Bank Fever Games, it can add extra games or land on the Major or Grand - so the pile gives you a reason to keep one eye on the reels and the other on the wolf.

There are two ways to get the hunt moving. You can build the Apple Pile and spin your way onto the Wolf Wheel, or land four or more Apple symbols with a Bonus Collect symbol to jump directly into eight Cash Bank Fever Games. That triggering combination first scoops up every Apple value on the screen and adds a cash award equal to 8x your stake. In one hit, the orchard gets collected and the bonus chase begins.

Once Fever Games are underway, Prize Pot tokens join the action. Gather three Mini tokens for 10x your stake, four Minor tokens for 25x, five Major tokens for 50x or six Grand tokens for 100x - and every pot can be awarded more than once. Cash values, extra games, prize pots and a wolf working a very busy wheel give Wolf It Up two layers of anticipation on nearly every spin. The wolf is hungry. The Apple Pile is growing. How much will you wolf up?

LET THE PIGGY PAY

Big Piggy Bank

Big Piggy Bank proves that saving can be a blast. Piggy Bank Cash symbols land across the first four reels with values from 1x to 100x your stake, while the Collector waits on reel 5 to bank everything in view. When the pigs pile up and that Collector drops, the screen can flip from colorful chaos to one clean cash sweep. No smashing required - this piggy knows how to pay.

Land four or more Piggy Bank symbols with the Bonus Collect symbol and the Golden Bank Fever Games swing open. Every Piggy value showing is collected before you receive eight Fever Games plus an 8x cash award. Then

watch for +1 Game symbols during the bonus. Each one adds another Fever Game and another 1x cash award, giving the bank another chance to stay open and keep the good stuff coming.

Prize Pot tokens turn the bonus into a second savings goal: three Mini tokens unlock 10x your stake, four Minor tokens unlock 25x, five Major tokens unlock 50x and six Grand tokens crack open the \$1,000 Grand Prize Pot. Better yet, every pot can be awarded more than once during the

feature. Whether you would rather feed the wolf or fill the piggy bank, find a participating Prairie State Gaming location, look for the newest Inspired games and decide which Cash Bank adventure gets your first spin.
